

Eriksson for City Council 2016

Göran Eriksson for City Council 2016

As the April 2016 election rapidly approaches, I am very proud of the tremendous outpouring of support I have received from people in every corner of Culver City. I am excited about working together with everyone in the community to take on the challenges we all face.

I love our community and everything it has to offer, and I am determined to make Culver City an even better place to live and work.

I was appointed to the Finance Advisory Committee by the City Council in 2013. In my role as chairman of the city's Finance Advisory Committee, I have learned what it takes to keep our city on firm financial footing and developed a vision for the city's future fiscal health. As a lifelong environmentalist I have spent years at the cutting edge of bio-fuel and other sustainable technologies, working to create a sustainable future for our community and others.

I know that making our city truly sustainable is an enormous task, but one that we can achieve. As both a small business owner and a resident, I understand the critical importance of balancing a strong and vibrant business community that also maintains the small-town charm that has made Culver City such an attractive place to live.

I encourage you to spend some time on this website getting to know me and where I stand on the issues. If you agree that Culver City needs strong and effective leadership as we work together and plan for success, please join our campaign team. And, of course, please let me know where you stand on any

issue facing our community by sending me an [email](#).

With your help, we can make a difference in the way Culver City government works for you.
